Council Asks Legislature To Clear Bay Fill Status

Albany City Council Monday night unanimously approved a resolution asking the State Legislature to clarify the status of Albany's bay fill, which the city has been told comes under the "grandfather clause" of the McAtter-Petris Act and is therefore exempt from BCDC jurisdiction.

Albany had started its filling operation prior to the creation of Bay Conservation and Development Commission in September, 1965. City officials were told that the "grandfather clause" of the McAtter-Petris Act creating BCDC, which exempts projects under way prior to BCDC formation, was written especially for this city.

BCDC, however, attempted to halt Albany's bay fill by injunction. The city then filed a declaratory relief action, which is still pending in the courts. The litigation has cast a cloud over future development of Albany's shoreline, making it difficult to qualify for federal grants.

The resolution asks the legislature to pass legislation stating that Albany is exempt from BCDC authority.

Ray Redel of Albany Bay Committee said such action would be a step toward non-regional development of the bay. If other cities could do what Albany is attempting, he charged, it would be a step back to "anarchy in filling the bay."

Mayor Richard O. Clark took issue with Redel while agreeing that the general concepts of BCDC are good. He said he was sure the city would be willing to sit down with BCDC and discuss plans for the local waterfront after the situation is clarified.

Clark said there are no public recreation areas along the entire inner perimeter of the Bay. In order to enjoy the Berkeley marina, he said, people must be

earning \$20-30,000 a year, have a boat and be able to maintain it.

He said there is a pressing need for recreation areas such as is planned for the Albany waterfront.

In other action Monday, Council:

FILED letters from the Albany Library Board inviting Council to attend a "Meet the Author" party at the library Thursday for Richard Hillman; from Administrative Officer James B. Turner reporting savings of \$1,300-\$1,400 a year on the non-uniformed pension plan.

REFERRED to City Attorney Larry Saler a letter from Fire Chief Gerald Browne on new rules and regulations for the Fire Department; to the superintendent of schools and the health officer a letter from the League of California Cities stating that laws on the books are sufficient for control of LSD, noting that the public must be warned of dangers through education.

HELD OVER action on two temporary taxicab applications and action on creating limited parking spaces adjacent to city schools.

APPROVED opening bids on April 3 for a new emergency generator plant for the Civic Center and a new street line marker; a resolution establishing the levy of assessments for San Pablo Street Lighting program. Turner reported that the aluminum standards were shipped March 10 or 11 and require about six days to reach Albany.

Robert Welch Speaks in Berkeley Monday

Robert Welch, president and founder of the John Birch Society, will speak at Berkeley High School Community Theater at 8 p.m. Monday, March 20. His subject will be "Vietnam."

Welch recently returned from the Far East, visiting Japan, Taiwan, Hong Kong and Thailand. His talk will concern American foreign policy, particularly as it refers to Vietnam. Welch will pose many questions which need to be asked about U.S. involvement in Southeast Asia. Among them are:

1. What are we really trying to accomplish?
 2. Why do we not let Chiang Kaishek's half-million trained troops come in and help us?
 3. If we really mean to oppose Communist aggression, why pick Vietnam as the place to do it? Why not Cuba?
 4. Are we officially at war in Vietnam or aren't we?
 5. Why fight them in Vietnam and help them everywhere else?
- Welch contends that a score of other pertinent questions need to be asked—and answered—about the Vietnam mess. The objective of the John Birch Society is to arouse public opinion to demand that the Administration take as its real objective in Vietnam, victory—then peace—or let's win this war in Vietnam and get out.
- State Senator John Schmitz of Orange County will introduce Welch.

Happy 40th American Legion Post 292 Observes Birthday Friday

Albany post 292, American Legion, will observe its 40th birthday and the 48th anniversary of the founding of American Legion with a social hour, dinner and program at the Veterans Memorial building Friday, March 17.

ASSISTANCE OFFERED ON MEDICARE CLAIMS

Older people in Berkeley and Albany who have paid doctor bills but have not yet claimed their Medicare doctor fill insurance payments are invited to have their claims checked by the Berkeley Social Security office before mailing them to the Medicare carrier, according to Gerald O. Dewhirst, district manager.

"In the first six months of the Medicare program some benefit payments were delayed because the applicants did not include all the necessary information with their claims," he said.

Dewhirst believes that most people will need this help only the first time they make a medical insurance claim. "The Medi-

care Handbook, which is given to all beneficiaries, explains how to make the claims," he said, "and the form is relatively simple, but most people can use some advice the first time they apply. We're glad to offer assistance, and we believe we can help many people to avoid some delay in their payment."

"Although the Social Security office does not make the decision or pay the claim, we can answer general questions about Medicare and help people get their applications ready for review by the carrier," Dewhirst stated. "If an older person can not visit the Social Security office in person, he can send the forms by mail or by someone else," he said, "but in this case, he should be sure to give his telephone number."

The Berkeley Social Security office is located at 1950 University Avenue. The phone number is 841-5121, extension 431. Medicare claims can also be filed Saturday, 8 a.m. to 12 noon.

Carbon Monoxide: Invisible Killer

Carbon monoxide, the odorless "breath of death," is not found only in the exhaust fumes of automobiles and trucks. It is present wherever and whenever fuel is burned indoors or out—in charcoal or hibachi grills, fireplaces, gas ranges or refrigerators, appliances and incinerators, and is also in smoking, according to Robert T. McMahon, M.D., Health Officer. It kills more than a thousand people in the U.S. and Canada each year.

Two causes are necessary to create poisoning: incomplete burning of fuel and insufficient ventilation. If one happens without the other, the victim may escape; when both happen together, the combination is deadly.

Some victims die quickly and some die slowly. Persons who have frequent headaches and dizziness or whose vision is affected or who feel tired and sleepy and unable to focus their attention on

anything may be suffering from mild cases of carbon monoxide poisoning. The victim is not aware he is being poisoned unless he's alert to these symptoms.

How does it kill? When the gas from burning substances is inhaled and combined with hemoglobin in the blood, it forms carboxyhemoglobin. Instead of delivering oxygen to the body's cells, the blood distributes this toxic substance. The degree of poisoning is measured in terms of blood saturation—70 to 80 per cent being lethal. Smokers carry over four per cent all the time.

In the home, a few simple precautions can put the odds against carbon monoxide poisoning in your favor:

1. Be sure the draft is adequate when using a fireplace.
2. Have gas refrigerators and stoves serviced and checked at least once yearly. Be sure at least one window is slightly open.
3. Have your furnace checked once a year.
4. Make sure all gas appliances are vented to the outside. This

includes hot water heaters, space heaters, gas-fired dryers or ranges and incinerators.

5. Don't use a gas range or oven for heating purposes since the exhaust fumes go directly into the room.

6. If you're using a hibachi grill inside, place it within the fireplace or near an open window. Best to always do it outside.

A few steps can lower the risk of poisoning in the auto, stated Dr. McMahon:

1. Have the exhaust system checked at least once a year, oftener if trouble is suspected.
2. Never sit in a parked car with the motor running.
3. Don't run the automobile engine in a garage even if the door is open.
4. If you back into snow or mud, move away and get out of the car to make sure the tailpipe is not plugged with snow.

Poisoning by carbon monoxide, the invisible, odorless killer, can be prevented if proper measures are taken. Prevention can save you and your family the tragedy of needless illness and death.

VADA PINSON, JR., left, receives keys from salesman Norman Estes, center, as Jim Woulfe, president of Jim Woulfe Ford, Inc., looks on. Vada, in the major league of baseball for some eight years, said, "I had to travel 2,400 miles to get a good deal on this Country Squire. How about that!"

DAGNA'S MARKET BEGINS 35TH YEAR OF SERVICE

Happy anniversary to Dagna's Market at 1382 Solano Ave., "The Store for Nicer People," which is beginning its 35th year of service to Albany families.

Owned by Joe and Mary Dagna since 1933, the market has stood the same location since its founding. It has been expanded, modernized and a large parking lot has been added, but the ingredients of top quality and personalized service are much in evidence today as they were at first.

Joe Junior was Joe and Mary's child and took over the management of the market upon the death of his father in December, 1963. In addition to all food items and fresh meat, Dagna's carries produce, liquor, magazines and sundries.

The current owner, outgoing president of the Albany Chamber of Commerce and incoming president of Albany Rotary club,

has been active in many organizations, currently enthusiastically supporting the Solano Avenue Lighting and Beautification committee of the C of C.

He is past president of Bay Area Grocers and currently serving on the Western U.S. advisory committee of National Association of Retail Grocers. He is a 20-year member of post 292, American Legion, belongs to the Bayview Aerie of Eagles, Sierra club and Albany Moose lodge. He was chairman of the Heart Fund in the Business Community for two years.

He and his wife, Jean, past president of St. Jerome's Guild, are the parents of Joe III, 14; Jerry, 13, and Janine, 11.

About the continuing success of his market, Joe says, "As long as we have the numbers of people willing to be served, we can be competitive with supermarkets. We're proud of the fact that third generation shoppers are now coming to our store. This we hope, means they are confident of fair treatment and getting full value for every dollar they spend."

"We try not only to serve the community as a retailer, but as a participant in community affairs," Joe said. "We have a strong loyalty to civic efforts that make Albany a better place in which to live and shop."

Lower Taxes?

WRITE REPRESENTATIVES SUPPORTING BILLS OFFERING TAX RELIEF

S.B. 170—Lewis Sherman (R) A.B., 504—John Miller (D), Leon Ralph (D), Dr. March Fong (D)

The above legislation has been introduced to provide financial relief for University Village. For Albany this could mean \$90,000 - \$95,000 added income, and could be the basis for a reduction in the local school tax.

The legislation is statewide in nature, recognizing that a condition of "State Impaction" exists wherever property is removed from the tax rolls, residential facilities provided and children to be educated in the school district where the condition exists.

This legislation represents a continued fight by the Albany Board of Education extending over nearly 10 years to obtain financial relief for a condition caused by a State Agency—the University of California.

Residents of Albany are urged to write letters, cards or send telegrams to appropriate committee members indicating the community need and support for passage of the bills. Petitions are not encouraged.

Address of all legislators is: State Capitol Building, Sacramento, California 94518. Members of the Assembly

Ways and Means committee include Chairman Robert W. Crown, Vice Chairman Frank Lanterman, E. Richard Barnes, Frank P. Belotti, Carl A. Britschgi, John L. E. Collier, Charles J. Conrad, Mrs. Pauline Davis, Lester F. Greene, Stewart Hincley, Lester A. McMillan, Charles W. Meyers, Don Mulford, Carley V. Porter, Leo J. Ryan, Winfield Shoemaker, Victor V. Veysey, Charles Warren and George N. Zenovich.

Those comprising the Senate Finance committee are Chairman George Miller, Jr., Vice Chairman Stephen P. Teale, Hugh M. Burns, Randolph Collier, Richard Dolwig, Donald L. Grunsky, Robert J. Lagomarsino, J. Eugene McAteer, Albert S. Rodda, Jack Schrade, Alan Short, Walter W. Stern and Howard Way.

Members of the Assembly Education committee are Chairman Leroy F. Greene, Vice Chairman Kenneth Cory, Willie L. Brown, Jr., William Campbell, John L. E. Collier, Earle P. Crandall, James W. Dent, John F. Dunlap, Edward E. Elliott, March K. Fong, Bill Greene, Robert Monagan, Winfield A. Shoemaker, John Stull, John Vasconcellos and Victor V. Veysey.

The Senate Education committee includes Chairman Albert S. Rodda, Vice Chairman James Q. Wedworth, Alfred E. Alquist, Clair W. Burgener, Mervyn M. Dymally, Donald L. Grunsky, John L. Harmer, J. Jensen Says Auto Theft Is Young Man's Crime

Careless motorists contribute heavily to what has been described as this nation's number one "teenage crime," according to Police Chief Ralph Jensen.

The term "teenage crime" was applied to the stealing of cars by the Federal Bureau of Investigation in its Uniform Crime Reports. The agency reported that 88 per cent of individuals arrested for car theft were under age 25 and that more than 50 per cent were under 18 years of age.

National statistics show that of the more than 500,000 autos stolen last year, 80 per cent were found to have been left unlocked.

Adult motorists should realize that taking and driving a car is one of the strongest temptations to youngsters 12 to 16 years of age, Chief Jensen noted.

"That is true," he said, "whether the teenager is from a poor or a well-to-do family. The great desire to get behind a steering wheel is there just the same."

"Guided by wise parents, most youngsters manage to get the desire to drive under control and develop naturally into properly trained young drivers," he said. "But too many do not, and careless adults, apathetic about heavy social and dollar costs of car thefts, are partly if not largely to blame."

"A parked car with keys in the ignition is an open invitation to some teenage boy," Chief Jensen said. "The accomplishment of the first car theft leads to its

repetition, and often to more serious offenses."

Police files on hardened criminals usually show auto theft to be the first major offense.

"Every car owner should assume full responsibility for locking his car against theft. Such precautions would prevent a large share of impulsive first car thefts and help save many youngsters from starting on the road to serious delinquency. A car ready to drive is just too much of a temptation for a teenager," Chief Jensen said.

Spurred by the growth of car thefts, Albany Police Department is intensifying its efforts to prevent and solve auto thefts, and at the same time is cooperating fully with Albany's campaign of education to persuade motorists to help curb car stealing, particularly by locking ignitions and doors of parked cars.

Williamson will distribute written instructions on how to make a home electronic burglar alarm. The club meets at the El Cerrito Co-op, 1751 Eastshore Boulevard, at 8 p.m.

Protect Your Children Against Measles, Says The AMA

CHICAGO—Now is the time to have your children immunized against measles if they have not already received this protection, says the American Medical Association.

Many parents are surprised to learn how dangerous this common childhood disease really is.

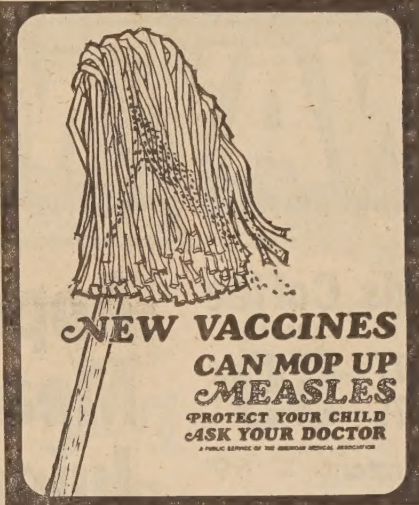

An estimated 250 American children died from measles in 1966. More than 150 suffered measles encephalitis, sometimes called sleeping sickness, or brain fever. Encephalitis frequently leaves children with permanent disabilities, including mental retardation, deafness, and blindness.

Future tragedies can be prevented, because safe and effective measles vaccines are now available. In the past four years, these vaccines have helped cut the measles death rate in half.

It's possible that measles could be eradicated in the near future if more parents protected their children with immunization.

The AMA recommends that every infant be vaccinated when he is about one year old. All children over this age who have not been vaccinated and who have not had measles, should be immunized now.

It is especially important that children in nurseries, kindergartens, and the first two grades of elementary school receive measles immunization. These young-

sters have the highest risk of infection.

Measles immunization is safe, inexpensive, and easily performed. See your doctor for his recommendations.

If enough children are protected by immunization, measles will disappear. It's time to get rid of this familiar, but often dangerous, and sometimes deadly childhood disease.

ART VOLUNTEERS SOUGHT BY BERKELEY RED CROSS

"I credit my grandmother for my interest in the elderly particularly those in the convalescent hospitals," explains Jane Bergen, chairman of the Art Volunteer program at the Berkeley Red Cross. "She spent the last few years of her life in a convalescent hospital and I realize how much it meant to her and the others in the home for me to come in to see her. Today the need is even greater." "More than just visiting, however, this program developed by the Berkeley Red Cross, provides

are the simplest kind. The projects are developed to fit the capabilities of persons who vary from the normal range of mental and physical capabilities to those crippled by arthritis or severely limited in other ways. "From working with the veterans in crafts at Oak Holt Hospital as well as with this Art Volunteer Program, I can vouch for the tremendous sense of satisfaction this work gives me. The new class starting March 27 at the Berkeley Red Cross, 2116 Allston Way, could do the same for you. Just call TH 5-1430 for an interview with Mrs. Adelle Lemmon, Red Cross coordinator of the program. It's great fun and you meet such interesting people."

SENIOR CITIZENS

548 Masonic Ave.

The monthly business meeting of the Seniors was held Tuesday, March 7. It featured a lively discussion of future activities at the Center.

Plans are complete for the Easter luncheon Tuesday, March 21, at Kirby's in the Plaza. Deadline for securing reservations is March 16. Contact Ethel Macquart at 526-3687.

The bridge class on Tuesdays at 10 a.m. welcomes new members.

The ceramic class on Wednesdays from 10 a.m. to 5 p.m. can accommodate more members. Some beautiful items are being made. The Center has its own kiln.

Community service workers on Fridays are asking for donations of used bath towels and old blankets to be used in making bibs and pads for playpens. These are taken to Snediger Cottage for use in caring for deserted and other unfortunate children being cared for there.

Old sheets, pillowcases and discarded white shirts will be accepted at the Center, where Esther Tower, a member who is also active in the American Cancer Society work at a Masonic Hall in San Pablo, will see that they are delivered to Lucille Carl to be made into dressings for cancer patients.

Since the address of the Senior Center appeared in the Action Line of the Oakland Tribune, many used Christmas cards have been received to be used to aid the Cystic Fibrosis foundation.

A card was received from the Levines, who are vacationing in Florida, and the Boucetts are also touring Mexico on vacation.

Call 526-1601 for further information. The center is closed Saturdays and Mondays.

CHARLES MCCARTHY, is now with the new and used car sales of Jim Woulfe Ford, Inc. He lives in Pinole with his wife, Wanda, and four children. He finds time to play a little golf and to fly. —Omega Photo.

Proclamation

WHEREAS, the alarming increase in auto thefts across the nation has resulted in a National Automobile Theft Prevention Campaign coordinated by the U.S. Department of Justice and participated in by state and civic officials, police authorities and professional and civic associations throughout the U.S., and;

WHEREAS, statistics furnished by the Federal Bureau of Investigation and juvenile authorities show that more than 60 percent of auto thefts are perpetrated by teenagers, and that auto theft has frequently been the first offense in a life of crime, and;

WHEREAS, there were 24 cases of auto theft in Albany last year, and 100 percent of these cars were left unlocked by their owners, and;

WHEREAS, a concerted effort is being made by responsible elements of our community to alert car owners to the fact that they are inviting someone to steal their car when they leave it unlocked, now, therefore,

BE IT RESOLVED, that I, Richard O. Clark, Mayor of The City of Albany, proclaim May 15 as the date for the inauguration of our city's participation in the National Automobile Theft Prevention Campaign, and urge all citizens to join actively in helping curb auto thefts as a major means of reducing economic loss and juvenile delinquency in Albany.
